Stendra Super Force

The unique product **Generic Stendra Super Force** performs two functions at once. The main feature of the drug can be attributed to the fact that its intake can be combined with the consumption of small doses of alcoholic beverages. While the active substance of the drug Avanafil 100 mg causes chemical transformations and provides a powerful erection, Dapoxetine 60 mg influences on the receptors of the cerebral cortex, and inhibits the reuptake of serotonin. This allows you to significantly increase the latent period, delay ejaculation and control the process of intimacy.
