Tadora®

Tadora® - is a popular Indian medication, produced by German Remedies. Each pill of this remedy contains 20 mg of Tadalafil, which is used in serious health conditions during problems with potency, erectile dysfunction, inability to attain or maintain stable erection. It may be prescribed to patients with symptoms of prostatic hyperplasia, which include incomplete urination or frequent and painful urination in male. **Tadora®** can be used as a treatment of pulmonary arterial hypertension. Those who use tadalafil during sexual disorders, should know that this medicine does not cure erectile dysfunction, impotence, and does not increase sexual desire, but only provides a good erection during sexual intercourse.

Active ingredient: [Tadalafil](#)
