## Ezetimibe tablet

### What is this medicine?

EZETIMIBE blocks the absorption of cholesterol from the stomach. It can help lower blood cholesterol for patients who are at risk of getting heart disease or a stroke. It is only for patients whose cholesterol level is not controlled by diet.

### What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- liver disease
- an unusual or allergic reaction to ezetimibe, medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

### How should I use this medicine?

Take this medicine by mouth with a glass of water. This medicine can be taken with or without food. Take your doses at regular intervals. Do not take your medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

**Overdosage:** If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

**NOTE:** This medicine is only for you. Do not share this medicine with
