Stugeron tablets

What is Stugeron and when is it used?

Cinnarizine is used to treat problems affecting the inner ear and balance, such as dizziness and sickness. Travel sickness is caused by repeated unusual movements during travelling.

How will it treat my symptoms

Stugeron tablets contain 15mg cinnarizine as the active ingredient. Cinnarizine is an antihistamine medicine that works in the brain.

It prevents an area of the brain called the vomiting centre from receiving nerve messages sent from the vestibular apparatus in the inner ear.

Can I buy Stugeron Over the Counter?
