# Rifadin

**Rifadin** is an antibiotic that fights bacteria and prevents it from spreading in your body. **Rifadin** is used to treat or prevent tuberculosis (TB). **Rifadin** may also be used to reduce certain bacteria in your nose and throat that could cause meningitis or other infections. **Rifadin** prevents you from spreading these bacteria to other people, but this medicine will not treat an active meningitis infection.

Active ingredient: Rifampin

**Brand(s):**Rcin
**Manufacturer:** Lupin Limited
**Disease(s):**Tuberculosis
