Terbinafine Hydrochloride 1% Cream

What is this medicine?

TERBINAFINE is an antifungal. It is used to treat skin infections caused by certain types of fungus.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- an unusual or allergic reaction to terbinafine, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

This medicine is for external use only. Do not take by mouth. Wash your hands before and after use. If treating hand or nail infections, wash hands before use only. Apply enough product to cover the affected skin or nail and surrounding area. Do not cover the treated area with a bandage or dressing unless your doctor or health care professional tells you to. Do not get this medicine in your eyes. If you do, rinse out with plenty of cool tap water. Use this medicine at regular intervals. Do not use more often than directed. Finish the full course prescribed even if you think your are better. Do not skip doses or stop using this medicine early.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.
