Livalo

Livalo (pitavastatin) belongs to a group of drugs called HMG CoA reductase inhibitors, or "statins." Pitavastatin reduces levels of "bad" cholesterol (low-density lipoprotein, or LDL) and triglycerides in the blood, while increasing levels of "good" cholesterol (high-density lipoprotein, or HDL). **Livalo** is used to treat high cholesterol in adults. Lowering your cholesterol may help prevent heart disease and hardening of the arteries, conditions that can lead to heart attack, stroke, and vascular disease.

Active ingredient: [Pitavastatin](#)

Brand(s): Pivasta

Manufacturer: Zydus

Disease(s): High Cholesterol / Heart Attack / Stroke / Vascular Disease
