## Norethindrone Acetate tablet

### What is this medicine?

NORETHINDRONE ACETATE is a female hormone. This medicine is used to treat endometriosis, uterine bleeding caused by abnormal hormone levels, and secondary amenorrhea. Secondary amenorrhea is when a woman stops getting menstrual periods due to low levels of certain female hormones.

### What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- blood vessel disease or blood clots
- breast, cervical, or vaginal cancer
- diabetes
