Dicaris®Adults Tablet

What is this product?

Dicaris Adults Tablet is an antiparasitic medication. It is used in the treatment of worm infections. It works by killing the worms and this treats your infection.

Dicaris Adults Tablet should be used in the dose and duration as advised by your doctor. It should be taken with food, preferably at a fixed time. Avoid skipping any doses and finish the full course of treatment even if you feel better. Do not take a double dose to make up for a missed dose. Simply take the next dose as planned.

Some people may experience stomach pain, nausea, dizziness and vomiting as the side effects of this medicine. Please consult your doctor if these side effects persist for a longer duration. You may be monitored with blood tests and liver function tests throughout your treatment.
