## Viagra Strips

**Viagra Strips**® - is a comparably innovative medical product in the market of drugs for potency. It is represented by Novosil Strips, produced in India (Euphoria Health Care Pvt. Ltd). One dose - a strip that is placed on the tongue. The strip is designed to be pretty thin so it dissolves within 1-2 minutes. The active substance is immediately absorbed into the walls of blood microvessels located in the oral cavity. This significantly fastens the action of the drug. This form is the best as there is no need to swallow the drug and find some water to drink, but it leaves an odorous breath and pleasant aftertaste in mouth. The pack contains 7 strips for 7 days, it may be sorted by different fruit flavors. Each strip contains 50 mg or 100 mg of sildenafil. You will love its simplicity in use, its taste and powerful effect from a first try.

Active ingredient: [Sildenafil Citrate](#)

**Brand(s):**Novosil

**Manufacturer:** Euphoria Healthcare Pvt. Ltd.

**Disease(s):**Erectile Dysfunction / Impotence
